

Formatting HDD

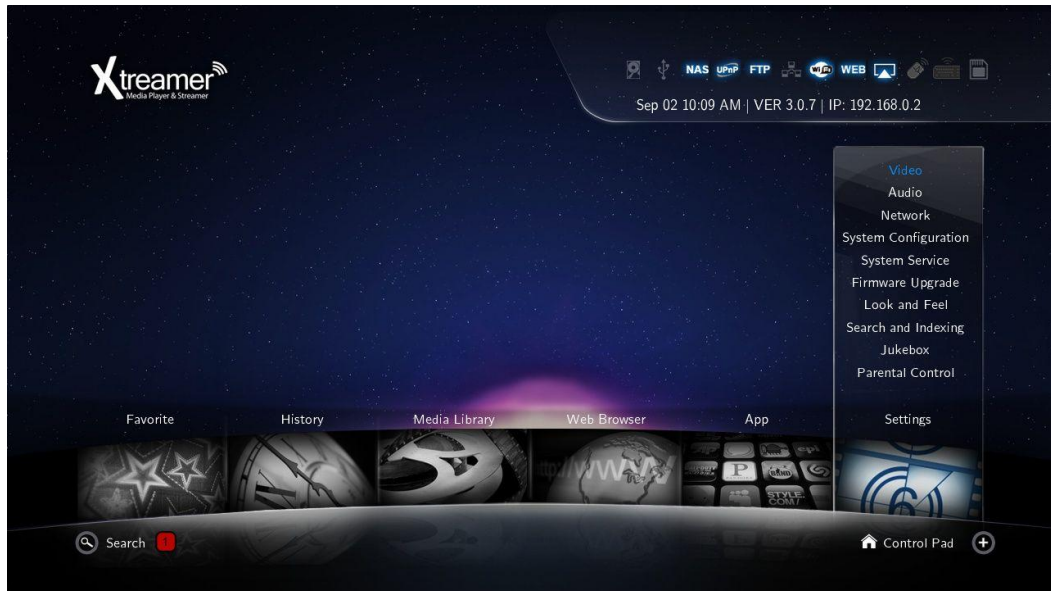

Ver.3.0.*. Firmware

Formatting HDD

HDD Format via Xtreamer UI

If you bought a new hard disk it's highly advisable to format it via a Windows utility or a relevant program before using it on your SideWinder 2.

How to Format Internal HDD

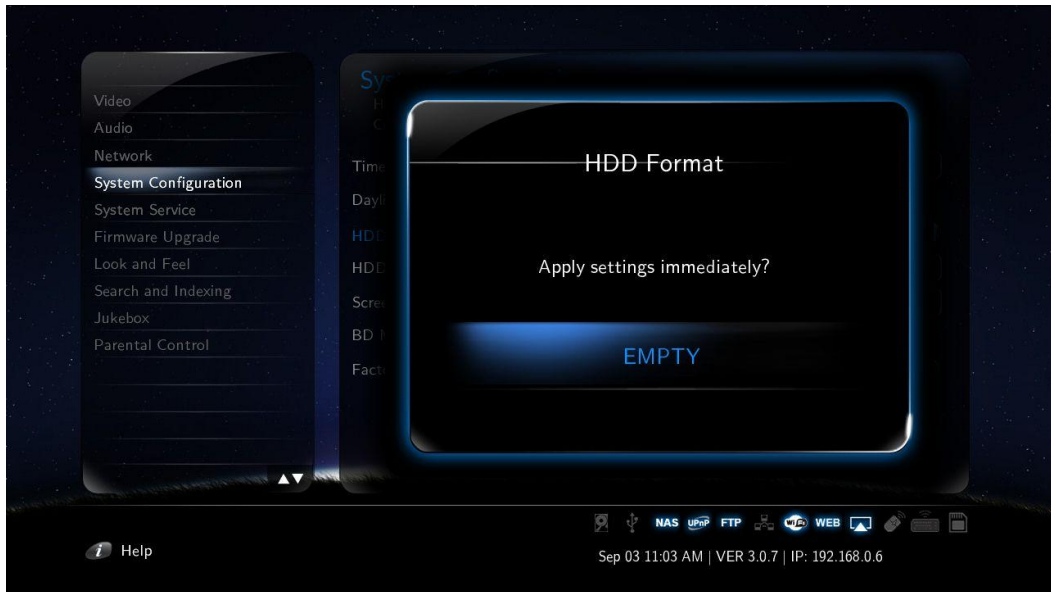

1. Insert HDD into Xtreamer SideWinder 2, and switch the player on.
2. Select [Settings].

3. Select [System Configuration] – [HDD Format].

Formatting HDD

4. Select HDD .

Follow the instructions.

Please note, that formatting the hard drive will delete all data.

5. After HDD format is complete, press [OK] to reboot.

You can also format the hard drive on your computer.
Ver 3 firmware supports FAT, FAT32, NTFS, EXT3, HFS+ formatting options.
